

PULP MILL PUBLIC MEETING

12 noon, Sunday 14th October
Bondi Pavilion

Come along and find out how you can help protect
Tasmania's families and future from Gunns' pulp mill

Family beside the Tamar River, northern Tasmania / John McCausland

This pulp mill would double woodchipping in Tasmania, discharge 30 billion litres of effluent a year, increase air pollution, and release carbon dioxide equal to an extra 2.3 million cars a year.

SPEAKERS

- | | |
|---------------------------|--|
| Danielle Ecuyer | Climate change campaigner, Women for Change Alliance |
