

7th February to Paul Harriss.

CC to Stuart Wright@ parliament.tas.gov.au

Dear Sir,

Further to my email below to which I have received no reply, please take this as an official complaint.

I wish to investigate the parameters required to establish a Royal Commission regarding the conduct of the Chair of the Legislative Council Select Committee into the Tasmanian Forest Agreement, Paul Harriss has definable connections to Ta Ann, a company who, if this legislation is approved, will be in receipt of a large financial benefit.

It is my opinion he should never have instigated the Select Committee, appointed himself Chair when in full knowledge of his connections to a possible major beneficiary, hence the reason for my request to address the Committee.

It is a matter of some moment that the email below was not considered worthy of a reply.
John Hawkins
