

2013 Dorothy Pearce Address

Delivered by David Hunt, US community development strategist and storyteller

The Dorothy Pearce Address is a public event held annually in honour of TasCOSS Honorary Life Member Dorothy Pearce, who died in March 2013.

David Hunt is an internationally renowned community development strategist and organiser, and gifted storyteller. He is the founder of David Hunt & Associates, Washington, DC, an institution dedicated to citizen empowerment and community development. David is also the founder of the Community Building Storytelling Project, designed to reintroduce storytelling into American culture as a tool to build community and heal America and the world. Under his directorship (1988-1995), the Chicago Rehab Network led a broad-based campaign that resulted in the city of Chicago targeting \$750 million to low-income housing development.

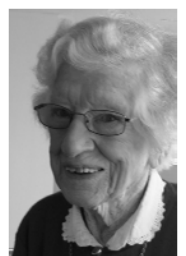

David Hunt appears courtesy of Aged & Community Services Tasmania and with the support of the Tasmanian Department of Economic Development, Tourism and the Arts.

Light food and some refreshments provided in ticket cost.

Catered event – RSVP essential
