

YOU HAVE THE POWER TO END CLEARFELLING

- Tasmania has become one of the most intensively logged places on Earth.
- Over 90% of Tasmania's logging goes to woodchips.
- Economic returns are terrible.
- Wastage is huge. Millions of tonnes of felled timber were burned on the forest floor last year.
- Thousands of jobs have been lost.
- Our water catchments are being damaged and polluted.
- A vote for Labor or Liberal means more of the same.

Tomorrow think before you vote

(IN THE PRIVACY OF THE POLLING BOOTH PUT LABOR OR LIBERAL LAST)

We need some new faces in our Parliament to stop this madness.
