

Organics Tasmania and the **Safe Food Foundation** invite you to discuss:

What advantage does a GMO moratorium offer Tasmania?

THURSDAY 3 OCTOBER 2013

The Tasmanian Government is currently reviewing its moratorium on genetically modified organisms (GMOs) and is inviting representations from all sectors of the community.

To ensure balanced and fair discussions of the issues in keeping or removing the GMO Moratorium, we invite you to participate in a day of discussions.

The proceedings will include short presentations with significant time devoted to open and frank discussion of the issues, facts and opportunities.

Speakers

Terry Moore *GMO-ID Australia - certifiers to the CERT ID NON GM global standard*

Bob Mackley *Broadacre farmer from the Wimmera*

Lindsay Burke *President of the Tasmania Beekeepers Association*

Chaired by Jim Rossiter from the Tasmanian Government's Food Industry Advisory Council

Light refreshments will be provided.
