Dear Sir or Madam,

Notice of Intent to conduct forest practices under the Forest Practices Act 1985
(Notice to local government: and to landholders within 100m of the proposed forest practices)

PROPOSED OPERATION : *Harvesting and Plantation Establishment*

This notice serves as formal advice that it is proposed to conduct forest practices related to forest harvesting and reforestation on MQ238a, Private Timber Reserve 1919, situated on Lake Highway. Please refer to the attached map. The proposed operations will be located at GDA grid reference 477398, 5388644 on the Quamby Bluff 1:25,000 map sheet. The land is situated within the Meander Valley Council.

The current land use for this area is forestry. It is proposed that approximately 41ha of ~~the~~ forest will be harvested using ground-based logging equipment. Following harvesting, a eucalypt plantation will be established.

The proposed operations will be subject to a plan prepared in accordance with the Forest Practices Code. The plan will be certified by a Forest Practices Officer appointed by the Forest Practices Authority prior to the commencement of operations.

Environmental and cultural values will be evaluated during the planning process for the proposed operation in accordance with the Forest Practices Code, including consultation with specialists where necessary. The following values will be assessed: flora; fauna; geomorphology; soil and water; cultural heritage; and visual landscape. Where necessary, special provisions to protect these values will be detailed in the forest practices plan.

The intended haulage route will be on Lake Highway.

It is expected that the proposed operations will commence in or after April 2008. If you have any queries in relation to the proposed operations please contact Paul Kelly on 6394 5555.
