# "The Inconvenient Truth"

The facts about Gunns and its relationships with Australian politicians.

T's Tasmania Teddy

*True*  
• Senator Abetz, whose Federal Liberal Party received \$50,000 from Gunns Ltd immediately after he was made Minister for Forests, is no longer the Minister.

• Plantation Managed Investment Schemes, promoted and protected by Senator Abetz, the former Minister for Forests, will now be under ~~close~~ scrutiny by the Australian Taxation Office.

*Close*

*Delete all*

• John Howard, who signed both the Regional Forest Agreement (1997) and the Community Forest Agreement (2005) thereby ensuring the desecration of Tasmania's State Forests, is no longer the Prime Minister.

• If the State Liberal Party of Tasmania is to survive as a political force, it must act as a professional opposition to the Lennon Labor Government. If not, the Federal Liberal Party will not gain a single seat in Tasmania at the next Federal Election.

*possibility*

*How*  
• Robin Gray, a former Liberal Premier of Tasmania and now a Board Member of Gunns Ltd, who was found by a Royal Commission to have acted improperly over \$10,000 in 1989 has no further influence within a Federal Liberal Government.

• The Federal Labor Party will distance itself from the corruption now becoming evident in the State Party. Lennon was no friend to the Federal Labor Party in Opposition during the 2004 Election.

*Delete all*

• Malcolm Turnbull is no longer Minister for the Environment. Based on his knowledge of the Pulp Mill process and his obvious desire to become leader of the opposition, I suggest he is now in a position to press for a Royal Commission into the Tasmanian forest industry.

• The "Shreddergate Affair" means that the murky polluted waters have at last begun to clear. ~~The word corruption is just becoming visible at the bottom of the pool and this is maybe the most "inconvenient truth" of all.~~

*Delete second sentence*

Say **NO** to Gunns, tell the truth and support democracy, lawful business and progress in Tasmania.

*I think that*
