Dear Mr Jaensch

Congratulations on your re-election and recent appointment as Minister for Housing, Human Services and Planning.

Please find attached a copy of a letter sent to the Premier on 11 March 2018 proposing that the government require that ten percent of residences built at Macquarie Point be affordable housing. I understand this has been forwarded to you by the Premier's office.

I encourage you as the new Minister to be big and be bold on this issue of homelessness and housing affordability. I believe the Tasmanian people will back you if you make the most of this window of opportunity that Macquarie Point presents.

Yours sincerely

Richard Griggs
